

## Barriers to Access - Scoping out the issues

**M- Care training – module 1  
Thursday 26<sup>th</sup> September 2019  
12-13  
Milan, Italy**

**Julian Hows - DRAG**  
Development Research  
Advocacy Governance  
[juliandragnew@gmail.com](mailto:juliandragnew@gmail.com)

*Early on, Billy learned the value of a slide presentation.*

## Purpose of Session

**To allow participants to map out country-by- country their experience of the following:**

- **The ‘Barriers’ (regulatory, legal, practical) that impact upon providing HIV testing treatment and care services for migrants on an equitable basis with the ‘general population’**
- **Identify Psychosocial issues which need to be addressed and considered to engage with, serve the needs of, and empower migrant communities.**

**Julian Hows - DRAG**

*Development Research*

*Advocacy Governance*

**juliandragnew@gmail.com**

## Method of Session

- All participants filling in a flip chart template which will be structured to allow for the capture of both quantitative assessment as well as some qualitative observations
- A led group discussion so that the group can highlight the issues specific to their country and experince

**Julian Hows - DRAG**  
*Development Research*  
*Advocacy Governance*  
**juliandragnew@gmail.com**

## Expected Outcomes

- **Participants have had the opportunity to learn about the barriers and psychosocial issues from other countries**

**And been able to**

- **Identify possible similarities, differences, approaches to their work across countries and set the 'tone' for the rest of the module**

## Instructions

- **Using the templates on the flip charts- one for prevention and the other for access to care fill in the grid for your country using the printed labels provided**
- **For the column titled ISSUES take a blank label and write up some of the issues arising from the responses you have given**
